Advertising is news, as much as the headlines on the front page. Often it is of more significance to you.

FIFTY-THIRD YEAR No. 34.

CEDARVILLE, OHIO, SATURDAY, AUGUST 1, 1930

PRICE, \$1.50 A YEAR

NEWS LETTER FROM STATE DEPARTMENTS

COLUMBUS, O.—A recent decision was handed down by the Franklin County Common Pleas Court that fees due from foreign corporations for qualification in the state, or upon increase in proportion of property and business in the state, have been incorrectly computed in the office of the Secretary of State for several years. The computations were based on a ruling of the Attorney General of the State, which has been followed for the past fifteen years. The fact that the lower court has ruled adversely will not change the computation of fees for the present as the Secretary of State must follow the instructions of the Attorney General, unless the Supreme Court of Ohio should rule otherwise.

The largest contingent of National Guardsmen ever assembled at Camp Perry can be found there this week, comprising the Division Staff commanded by Major General Benson W. Hough, the State Staff, 112th Engineers of Cleveland, 112th Medical Regiment and 112th Air Corps of Columbus, and the 57th Division of Special Troops, all of whom entrained Sunday, July 27th. Also at the camp where the guardsmen, named, arrived, were the 74th Infantry Brigade, 168th Infantry of Columbus, the 14th of Cincinnati, service company and band. Col. Robert H. Hubbert, in charge of guardsmen at the Ohio Penitentiary following the Easter Monday fire is in charge of the 168th. In all there are over 4,000 guardsmen in camp. Governor Myers Y. Cooper will inspect the camp Wednesday and that night there will be a brilliant display of rockets with flares which will light the camp most brilliantly and there will also be a display of tracer bullets from machine guns.

There has been certified to H. Ross Ake, Treasurer of State, from the Division of Insurance, the sum of \$6,776,242.93 due from the various insurance companies with the State of Ohio. Of this sum \$3,300,022.06 has already been collected, and the remainder is due within the thirty day period from August 1, 1930. Of this amount \$181,492.88 is paid for the maintenance of the State Fire Marshal's Department and the balance is paid into the General Revenue Fund of the state. The books for collection of Foreign Corporation Taxes have been closed and all delinquent accounts certified to the Auditor of State for the addition of 15% penalty. The Domestic Corporations are also closed, and certification to the Auditor of State will be made as rapidly as possible of the delinquent accounts.

J. W. Thompson, chief of the division of fish and game of the Department of Agriculture, states that the production of ringnecked pheasants and Hungarian partridges in Ohio will be the largest in years, being aided by advantageous weather conditions. A new game preserve has been secured by that state which has ideal conditions for the raising of birds and it is predicted that within two or three years the department will be distributing from 10,000 to 20,000 birds each year.

Ohio county and independent fairs are now in the limelight and horsemen, exhibitors and concessionaires are more than busy preparing for the season which will run up to the middle of October. County fairs are being held this week in Williamson and Gallipolis and next week will see the gates at Xenia, Hillsboro, Proctorville, Rock Springs and New Lexington. Independent fairs will be held at Ashley and Ripley. The Big Ohio State Fair will be held the week of August 25-30.

At the highway letting scheduled for the afternoon of Tuesday, July 29, there will be 48.05 miles of improvements to be contracted, the estimated cost of which is \$3,510,987.44. The largest mileage is in Cuyahoga county, 4.68 on the Cambridge-Earnestville road. The Hamilton-Carhage road in Hamilton county will be improved for 4.35 miles and the Brown-Jackson road in Lawrence county for 4.1 miles. State Highway Director Robert M. Wald will announce the successful bidders within the next few days as soon as computation is completed.

Harry C. Lewis Goes To Xenia Farmers' Co.

Harry C. Lewis, former manager of The Cedarville Farmers' Grain Company, has been appointed manager of the Xenia Farmers' Exchange Company to succeed O. W. Cole. Mr. Lewis was manager of the local company eight years and the business was recently sold to E. A. Allen, who now is in charge. Mr. Lewis assumed the Xenia position Monday.

COURT NEWS

ASK FORECLOSURE

Foreclosure of mortgage on real estate in Fairfield, given to secure a \$2,500 loan, is asked in a suit brought by the Peoples' Building and Savings Co. against Charles S. Henry and Agnes F. Henry and the Osborn Lumber Co., which claims an interest in the premises.

COGNOVIT JUDGMENTS

Cognovit note judgments have been taken in the following cases: M. V. Michel vs. The Southwestern Oil Products Co. of Osborn, \$110.32. Francis J. Dralla vs. The Southwestern Oil Products Co., \$1,062.81. J. D. Ryan vs. The Southwestern Oil Products Co., \$1,391.14. Associated Investment Co. vs. Stanley J. Nicely and Evelyn Nicely, \$262.70. John B. Patton vs. John William and Walter Henry, \$107.84.

REPLEVIN AUTOMOBILE

Carl F. Swartz, as guardian of Mary Lamme, has used John Lamme to replevin an automobile alleged to be held illegally by the defendant.

PARTITION SOUGHT

Suit to partition 1.12 acres in Caesar Creek Twp. has been brought by Dora Mowen against A. R. Jones and John T. Harbise, Jr.

REPORTS CONFIRMED

The court confirmed the report of the sheriff and commissioners in the case of Viola Hubbard vs. James Hubbard and holds that the parties are each endowed with a one-half interest in the premises. The defendant has elected to take the premises at their appraised value of \$500 plus one-half the court costs, and the sheriff is directed to convey him the property upon receiving such payment.

SALE CONFIRMED

Sale of property to Antioch College for \$9,500 cash by William C. Marshall, administrator of the estate of Louise Marshall was confirmed by the court and distribution of the proceeds ordered.

NO INHERITANCE TAX

No inheritance tax has been assessed by the court in the following estates: Louise Marshall, net value \$13,933.33; M. A. Lamm, net value \$677.93; Susan M. Beam, \$8,950; Lillie O. Buckles, \$330; M. A. Davis, \$1,576.30; Harold L. Harner, \$325; Mollie J. Landrum, \$1,280; Lewis Powers, \$1,800; Arthur Moon, \$610.

GUARDIAN AUTHORIZED

Carl F. Schwartz as guardian of Phyllis Huston, was authorized to spend \$500 a year for the care and maintenance of his ward.

AUTHORIZED TO SELL

Bertha H. Booth, as administrator of the estate of Serena Booth, was authorized to sell the premises at private sale for \$650 to W. O. Hickman and Isaac Hickman, and make deed to the purchasers.

SALE CONFIRMED

In the case of William A. Miller, administrator vs. the Peoples' Building and Savings Co., sale of property was confirmed, and the administrator ordered to give a deed to the purchaser, Charles E. Allen.

ESTATE APPRAISED

The net value of the estate of Sarah Ann Hostetter as fixed by the court for inheritance tax is \$14,761, on which inheritance tax is to be paid by Rebecca Hostetter, daughter-in-law, who inherits one-third and Bertha Hostetter, granddaughter, who inherits two-thirds.

ESTATE VALUED

Net value of the estate of William T. Beckr was found by the court to be \$4,794.06, with inheritance tax of \$12.38 to be paid by Maud Beard Dean.

ADMINISTRATORS NAMED

J. H. Brickel and M. T. Bumbaugh were appointed administrators de bonis non with the will annexed of the estate of D. A. Brickel. They qualified by furnishing \$2,500 bond.

BOND REDUCED

Bond of Elmer A. Smith as guardian of Mary A. Smith, a minor, was reduced to \$1,000.

PARTIAL PAYMENT ORDERED

Joseph H. Carr as executor of the will of Elvira Carpenter was directed to make a partial payment of \$6,000 to Lowell Carpenter.

HARRY McLEAN DEAD

J. Harry McLean, after a long illness died Friday night at his home south of town. He was a prominent farmer and the member of the Rose Twp. Board of Education. The funeral was held Monday with burial in Jamestown cemetery.

Why I Am For Judge Harry G. Gram of Springfield, For Congress

First—Because he is making a fight, one-handed against the Mal Daugherty-Dee Pemberton Republican machine, which has dominated Republican politics in this district for years and seriously discredited the Republicans of the district by their activities and associations;

Second—Because I believe Judge Gram is admirably equipped to represent the district in Congress. His five years' congressional experience in Washington as Secretary to General J. Warren Keifer, former Congressman, demonstrated not only his willingness but his ability to serve the people of this district;

Third—Because of his standing as a lawyer and of his administration of the affairs of the Probate Court for nine years he has become acquainted with the needs and desires of the people of this and other communities;

Fourth—Because Judge Gram has shown conclusively by his years of service in the Church, the Y. M. C. A., the Red Cross, the Boy Scouts, the Juvenile Court and the Ohio Welfare Conference that he is genuinely interested in the welfare of his fellow-men, particularly those who are unfortunate or in distress;

Fifth—Because his integrity is unquestioned and because I believe, if nominated and elected to Congress, he will represent the people and not the bosses of any political machine, with the same high purpose that has attended his activities in his own community.

Sixth—Because I believe Judge Gram has had such training, education and experience as will enable him to cope with the general problems before Congress. His knowledge of the farming industry, acquired as one reared upon, owning and operating a small farm will give him a sympathetic and intelligent understanding in helping to solve the vital problems of this great fundamental industry;

Seventh—Because there is nothing in the four term record of Judge Gram's opponent which entitles him to renomination or election, because his opponent is endorsed and sponsored by the discredited Daugherty-Pemberton machine; because his opponent has discredited himself with the national administration, as evidenced by his inability to appoint a supervisor of the census; because his opponent does not suggest in his campaign literature and cannot point a single accomplishment in his four term record; because his opponent is attempting to mislead the voters of the district in connection with the bill which he introduced in May, 1929, ostensibly to aid education in the rural districts. He does not dare claim any favorable consideration by the Committee of the House to which the bill was referred. He seeks to explain his inability to secure the passage of his bill in Congress by stating in the newspapers of July 22nd that his bill "has been endorsed in principle" by the National Advisory Committee on Education. The fact is that that Committee has not adopted or approved any plan or bill but is making a careful study of what the attitude of the federal government should be toward the educational program of the states. When Mr. Brand states that his \$100,000,000.00 bill will benefit every school in the seventh district with practically none of the money collected here, he should know he is making a misstatement. Even if en-

acted into law, that states of the Union would bear the greater burden of the other states and Ohio would be one of the eight black catch-penny methods to secure votes do not smack of real statesmanship.

Eighth—Because I believe Judge Gram possesses the mental, social and ethical qualities which make for the high type of statesmanship so vitally needed at this time in the affairs of our nation.

I sincerely trust that the Republicans of this district will join with me in nominating Judge Harry G. Gram for Congress.

Report On School Audit By The State Department

Findings for illegal payments totaling \$1,542 were reported by Mrs. O. A. Gunckel, state examiner in her investigation of school accounts in Greene county for a period between February 16, 1927 and May 28, 1930. The chief items are \$555, said to have been paid illegally to E. E. Snyder, former superintendent of schools in Beaver Creek township, and \$924 which the examiner points out was made to Mrs. Lela Bartlett by the board of education of Xenia township for teaching eight and three-fourth months in a township school, without having a certificate as required by law.

This finding was formerly made against Mrs. Jessie Wipert by the examiner in 1927. Mrs. Gunckel in her report points out that the finding is transferred to Mrs. Bartlett who testified under oath that she received the pay for teaching the school term of 1924-25 and that she had no legal certificate to do. The examiner states that the warrants for the teacher's pay, were made out in the name of Mrs. Wipert, who did not teach at all the terms mentioned, the finding having formerly been made against her for that reason. The teaching took place at the Old Town school.

Mrs. Gunckel holds that the board of education of Beaver Creek township had no authority to pay E. E. Snyder \$555, half of the money due on his contract for the remainder of the school term, when he was relieved of his duties as superintendent and teacher in the township January 1930. The payment was made in return for Snyder releasing the board from his contract.

Mrs. Gunckel's report also lists unrecovered findings of several thousand dollars made in 1927.

Car Jumps Road After Striking Culvert

A man and his wife giving Louisville, Ky., as their residence were somewhat bruised and cut Monday when their car hit a culvert and went into the ditch. Both had their wounds dressed by Dr. Schick. The accident happened each of town on the Columbus pike. The entire running gear of the car was caught on the culvert and was torn out of place. The car is being placed in order at the Wolford garage.

John Daniel Steel, Prominent Xenian, Died Sunday Morning

John Daniel Steel, 75, chairman of The Hooven and Allison Company, Xenia, long prominent manufacturer, died at 2:30 A. M. Sunday, after an illness of several months. He was born at Alpha this county, educated in Xenia and Wooster, and entered business with his uncle, Jacob Harbise. For a number of years he was head of the Hooven & Allison Company but resigned as president and general manager in 1928. He has been engaged in other business enterprises and until a few years ago was vice president of the Xenia National Bank.

Compared with the same month a year ago the cash income of Ohio farmers in June slumped one sixth, yet there was an increase of two per cent over May.

The Greene County Fair, August 5, 6, 7, & 8

The Greene County Fair is just around the corner and it promises to be beyond the standard of all other fairs held at Xenia that is as to its many points of interest. From the number of stake horses that are entered at Xenia and that are racing at various places this season and the possibility of these being at Xenia as they are all ready staked here it looks like a real high class bunch would score for the world. There are ninety-two horses entered in the four stake events and they are very evenly distributed among the four events. With four stake races and eight class events scheduled for the three days the race fans of this locality are going to have a rare treat in racing. The writer is predicting the breaking of the three year old trotting and pacing record as well as the track record for both trotters and pacers.

The show horse department has been separated this year and is putting forth a Belgian, Percheron and Grade Draft classes and with the premiums should attract many to show. For the benefit of the boys and girls the saddle pony class carries with it four prizes this year. The other live stock premiums are equally generous and this year should be well filled. The former school exhibit hall has been converted and the building painted, this building will house The Grange exhibit and from all indications there will be at least five Granges to compete for approximately \$400.00 this amount to be awarded on a percentage ratio as to number of points. In this building will be The Farm Bureau exhibit and the Boys and Girls Club work.

The Art Hall with Mrs. L. H. Jones as member in charge will house the Art work and the Merchants displays and other novel features.

The U. S. Government is sending a European Corn Borer exhibit which promises to be very instructive to Greene County is partly in the interest of Ohio.

The Public Health exhibit under the guidance of Mrs. Witemeyer Public Health Dept. of the county will consist of lectures with moving pictures to explain their work. This exhibit will be housed in a tent with ample seating capacity.

Other features of the fair will be the Automobile show under the direction of N. N. Hunter. The Machinery display with W. G. Smith as chairman.

The midway will be filled with various shows and games which all have ready spoken for a place. Pop corn candy and peanuts with pop, ice cream and ice cream candy and lemonade will add to the luster of the fair. The merry-go-round, the whip and the ferris wheel will add whatever might be lacking to make up a fair. Yes Mike-sell will have his famous potato chips on sale at all times.

A fair can only be as good as the folks in the community help to make it so come and do your share to raise the standard of Agriculture.

NOTICE: I will grind and sharpen your scissors, knives and razors. All work guaranteed. George McFarren.

You will want your home painted or decorated on the inside this spring. Call on Elmer Jurkat for estimates.

Funeral services were held from the Nagley funeral home in Xenia, Wednesday, with burial in Woodland cemetery.

Compared with the same month a year ago the cash income of Ohio farmers in June slumped one sixth, yet there was an increase of two per cent over May.

LARGE BARN WITH CONTENTS IS BURNED

What is said to have been the second largest barn in Greene county burned before noon Saturday on the Arthur Wildman farm near the Greene-Clark county line just off the Columbus pike.

The fire was discovered by Mrs. Wildman who noticed smoke coming from the roof. Mr. Wildman was at home at the time and he with neighbors were notified. The barn was across the road and some little distance from the home which was not in any great danger at anytime due to wind direction.

In the barn were 1200 bushels of wheat and about 100 tons of hay. The barn had been built originally for a cattle barn that would stable 100 head. It was second to the Bryan barn according to those acquainted with both structures.

The origin of the fire is unknown unless it was by spontaneous combustion. The insurance on the barn and contents was \$3,800 and the loss will be \$25,000.

The dry weather was too much for a straw rick on the H. E. Cherry farm on the Federal pike Saturday. Fire was discovered in the top of the rick which was near the barn.

Neighbors were summoned and by the hardest kind of work kept the barn from burning. Chemicals from the Xenia fire department aided while neighbors used wet manure in the feed lot to smother the fire.

An alarm of fire was turned in here Saturday about noon but it was only grass along the railroad and "Pittsburgh" residents were fearful it would reach them. The motor pumper was taken out but after several circuits it had to be taken to the garage for repairs due to a bent radius rod that made it impossible to guide it.

Charles Coulter received word Saturday that a large barn on his father's farm near Oxford had burned early that day. The fire was supposed to have been spontaneous combustion. The structure and all contents were destroyed, the owner, George W. Coulter, a tenant.

TWO FOURTH WARD MISSIONARIES HERE

Billie Rogers and Billy Shields, two political missionaries from Xenia's famous Fourth Ward, the two that hold the colored vote when it votes, were in town doing mission work for John Baughn for sheriff, Wednesday evening. Billy Shields states to the Herald he was only chauffeur for Rogers at so much per. It is not often the two ever are for the same candidate.

A house to house canvass was made Wednesday by a Mrs. Anderson in the interest of Baughn for sheriff and Mrs. Plattner for state representative. It is interesting to note the lineup this year of the candidates and methods of campaign.

Add "Insky" and You Are In Russia

The voter is taken for the easiest sucker in the world, according to some politicians and some candidates. Preceding each election or primary bait in various forms is dangled before the voters. The oftener a candidate comes for office just that many more times must he have a new kind of bait to fool the public.

Charley Brand having been before the Seventh District four times is now dangling new bait this year. In the past it was gravel roads, cheaper insurance, farm relief, stone crushers, but now it is free education at no cost to rural people. The gravel road idea died but not until millions of tax money from the automobile pocket book was wasted. Sift against Governor Donahay for cheaper insurance for farmers died after election, when Brand withdrew the suit. Promise for farm relief and the farmer knows today what that is but with Brand it is not as important an issue as two years ago.

Today it is education in the rural district at the expense of the taxpayer. "Gravel roads, does it work but did not cheapen insurance sound just as good?" His promises as to what he has done for the farmer speaks for itself. He now proposes to collect income tax from city people to pay for rural education. That sounds good also and listen much like a claim of Trotsky over in Russia. If it were possible and the city folks would stand for it and such a law would be constitutional, what a glorious time everyone would have in the rural districts.

But were do income taxes come from? Is not this tax taken from the profits of manufacturers of clothing, shoes, farm machinery, automobiles, gasoline, rubber tires, and everything else made in the city? How would the rural people be protected by manufacturers not passing on this tax to the consumer? Will Mr. Brand answer this question. The more tax placed on railroads the higher the freight rate is and the manufacturer hits in the same position. The more of his profit you take in income taxes the higher the price you pay for what you must buy. You were promised the gasoline companies would "absorb" the first two-cent a gallon tax but instead the companies take it out of the pockets of the automobile and truck owners.

Mr. Brand has a high sounding scheme in free rural education at the expense of city people. It is a proposal such as comes from Moscow. If Mr. Brand had "insky" added to his name and would make such a proposal, the cry would immediately cover the land that a "Russian Red" was preaching a dangerous doctrine and should be deported at once.

As a piece of class legislation nothing like it was ever proposed. It is not dangerous for it is buried in a committee file box in Washington. You will not hear so much about it after the primary. Nothing if Brand is defeated, and little more if he is nominated.

THE CEDARVILLE HERALD

EARL BULL — — — EDITOR AND PUBLISHER

Entered at the Post Office, Cedarville, Ohio, October 31, 1887, as second class matter.

FRIDAY, AUGUST 1, 1929

THE OHIO BRAND IN CONGRESS

It certainly has been extremely unfortunate that one of the largest Republican Districts in the United States should be forced to apologize for the class of statesmanship that has been sent to Washington the past eight years. The responsibility of course is with the people in the district, but the people in the past have been misled, hoodwinked by false promises, hamstrung by false issue flared before them and to top it off gift of salary money for stone crushers in the interest of companies making such equipment. Gravel roads and cheaper insurance have played a part all of which have proven genuine fakes so far as benefit to the people are concerned.

You wonder why a candidate for congress must resort to such tactics and the answer is that he is accomplishing nothing and has accomplished nothing in the past to constitute a record that will bear investigation. Not a single proposal has ever been brought to a realization for the benefit of the public.

The Herald has no personal grievance with Congressman Brand. We have never asked him for a single thing, but we have disagreed with his policy as not being outstanding and what it should be for a district such as the Seventh is. We have had no use for his political friends and associates, such as Harry and Mal Daugherty, D. Pemberton, the former liquor lobbyist. During the exposure of Harry Daugherty and the Ohio gang in Washington, we urged Congressman Brand to declare himself against Daugherty, but this he refused to do. In fact he stated in one of his letters to us that he would close the correspondence so far as he was concerned. The Seventh District Republicans certainly are not proud of Harry Daugherty's record in Washington. Certainly there is enough self respect that the District will not approve of Mal Daugherty, ever Fayette county, since depositors in the Daugherty bank may get as low as ten cents on the dollar on settlement of the bank failure. As to Pemberton, his record as a lobbyist and his control of Clinton county has sent officials to prison with indictments against others in the \$136,000 graft steal. These men are the political associates of Brand. It was their directing hand at two different meetings in Springfield early this year in Brand's behalf to shut out all other candidates. There was even free liquor to all who desired it and plenty of affidavits can be had as to what took place behind closed doors. The issue in this primary is the nomination of a man for congress that is free from such alliances and not bound by the political hold the Daugherty-Pemberton politicians may have on Brand. That candidate is none other than Probate Judge Harry Gram, Springfield, who has consented to be a candidate on the plea of citizens in the district that want all taint of the Daugherty element removed. A vote for Brand is a vote for continued power of the Daugherty crowd in this district.

Mr. Brand prates much as to what he has done for the farmer. We say nothing but mislead them on false issues and promises. If their present plight in the markets is the result of Brand's efforts, they should be satisfied. On the other hand if the farmers are not satisfied they certainly should be convinced that either Brand has been wrong in his ideas and methods or has done nothing at all.

There are nine counties in the Seventh District, all of them with strong agriculture following. The farmers in two of these counties have been unduly wronged. Politically they have wronged false gods and subscribed to doctrines far from the ethics of good government. Farm owners in Clinton county have been duped in the past by the Pemberton machine that robbed them of \$136,000 tax money. In Fayette county the Daugherty bank failure caught not only farm owners but citizens in general. Many of these people are today destitute as a result. The farmers of Warren, Madison, Greene, Champaign, Union and Logan should extend a helping hand to their brothers in Fayette and Clinton county by breaking this alliance between Daugherty and Pemberton and Charles Brand. It fell to the lot of Ex-President Coolidge to remove Harry Daugherty as attorney general and it is within your power to restore the Seventh District to honor and dignity by having a Congressman that will not be under the political control of these men that have betrayed the public in the past. Victory for Brand at the primary will bring rejoicing to the house of Daugherty and Pemberton but by nominating Judge Gram the Seventh District will follow the eliminating process adopted by Mr. Coolidge when he fired Harry Daugherty.

Already weakened, partly demolished by terrible earthquake shocks, many houses, palaces and churches in Naples were leveled by a severe gale, adding to the terror and loss of life. Then came a tidal wave driven by the gale.

After repeated earthquake shocks, with Vesuvius blazing menacingly in the background, a hurricane sweeping the city, thousands injured, two thousand dead, no wonder the people are frightened.

The appalling extent of Italy's disaster is due to the fact that in building even small dwellings, walls and floors are nearly all made of stone, roofs of heavy tile. Earthquakes causing even slight disturbance separating walls, allow heavy stone floors and tiled roofs to fall through, killing the inmates.

It is believed that Mussolini will order dwellings rebuilt of reinforced concrete. Ordinary steel framing is too expensive; lumber, scarce in Italy, is too perishable to suit Italians.

McClintic-Marshall, an American concern, erecting the great bridge across the Hudson river, has devised a method of steel construction, extremely light, little more expensive than wood. Mussolini should investigate that.

In ancient days men gathered to watch elephants, tigers, bears, rhinoceroses and other gigantic animals fight each other or fight gladiators. All interest centered on the big enemies of mankind.

Rembrandt painted a most interesting scientific picture of an elephant, with its queerly made knees and deep wrinkles. He never heard of a microbe. Today human intelligence is concentrated on enemies too small to be seen, far deadlier than any poisonous snake or ferocious tiger.

Dr. Thomas F. Rivers of the Rockefeller Foundation showed a gathering of scientists in Paris slides, explaining experiments with psittacosis, or parrot disease.

And Doctor Pfeiffer, learned German, discoursed on the "Pfeiffer bacillus," known to cause certain forms of influenza.

The germs discussed are so small they pass through porcelain filters. No microscope is powerful enough to reveal them. Science is not even able to explain how the germ of grippe or psittacosis, after years of harmless inactivity, can suddenly spread world-wide, creating havoc in a few months.

Calvin Coolidge wrote a history of the United States in 600 words to be engraved on a mountainside in South Dakota. Mr. Borglum, sculptor, carving the mountain, changed the text. Mr. Coolidge disowned it, and will probably write another.

You feel as though you had read of Moses coming down from the mountain with the Ten Commandments, and Borglum changing the wording, possibly leaving out the word "not".

Lady Owen, in Paris, rich, titled woman fell in love with Doctor Gastaud. He, she says, reciprocated until she lent him 10,000 francs. Then he stopped reciprocating, went back to his wife and—only the vernacular describes it—gave Lady Owen "the air."

Lady Owen thereupon shot the wife, Mme. Gastaud, three times, principally in the stomach.

Smoking gold-tipped cigarettes rapidly, Lady Owen expressed indignant surprise when the police refused to set her free. Who can read the heart of woman?

Why shoot the poor wife instead of shooting the "air giver"? All through the ages women have protected men and blamed each other.

Dr. James Eads How, lifelong friend of poor men, is dead of starvation, leaving perhaps \$1,000,000. He believed that abstention from food could cure anything. His theory cost him his life.

His money is left to help the most unfortunate class of unemployed, the "hoboes," whose friend he had always been.

The good example of sympathy is worth \$1,000,000; wisely spent or otherwise. But \$5,000 spent on ambitious youth might do more for the poor than \$1,000,000 spent on confessed failures.

Doctor Wood, head of the Crocker Cancer Research Institute, announces the successful growing of cancer cells in a glass tube.

That they are genuine cancer cells is known because, transplanted in the bodies of rats, they produce cancer. For 8,000 years, Doctor Wood says, men have "worked with dead cancer cells. Now, for the first time, we have them alive, and capable of producing human cancer."

The announcement is important. To hold any study your enemy is a great advantage.

Lesson for August 3

NAOMI AND RUTH: A STUDY IN RACIAL RELATIONSHIPS

LESSON TEXT—The Book of Ruth, CHAPTERS I AND II. And both men of one blood all nations of men for to dwell on all the face of the earth. (GENESIS 10:26) Ruth a Helpful Daughters.

JUNIOR TOPIC—Naomi's Faithful Love Leads Ruth to God. SENIOR TOPIC—Our Neighbors of Other Races. YOUNG PEOPLE AND ADULT TOPIC—The Way to World Brotherhood.

I. How Naomi and Ruth Were Brought Together (1:1-15). On account of famine in Bethlehem of Judah, Naomi with her husband and two sons sojourned in the land of Moab. After the death of her husband, her two sons married Moabite women. After a time her sons died also. After the death of her sons, Naomi resolved to return to her homeland, having heard that the Lord had visited his people in giving them bread. They went to Moab to escape trouble but only got into more. This is always the case when God's people go into the world to escape difficulties. It was not until Naomi was thus chastened that she resolved to return. When the time came for her to go, Ruth and Orpah accompanied her for a distance.

II. Ruth's Noble Choice (1:16-18). Greatly as Naomi loved her daughters-in-law, she would not have them go into this matter blindly. She wished them to know the seriousness of their action.

1. No chance for them to marry again (v. 11).

Naomi told them that she had no more sons for whom they could wait. It was that day for a woman to be unmarried was the greatest disgrace. Society differed then from now. No avenues were open by which women could earn their living.

2. Heathen gods must be renounced (v. 16).

Idolatrous worship could not be carried on in the land where God's people dwelt. This was delicately touched upon when Orpah went back. She went back when it was plain that there was no chance for her to get a husband. After Orpah's return Naomi put an additional test upon Ruth, that of giving up her religion. Ruth was equal to the occasion. Her faith was fully made up. She was willing to accept as her God the One who was able to produce in his subjects the nobility of character she had observed in Naomi.

Ruth's determination was so definite and unflinching that her expressions have come down to us in words which "no poetry can rival." And, as we packed her baggage, and which has gone through centuries with the music which will not let them be forgotten. "She was determined to share Naomi's journey, her home, her lot in life, and grave in death, whatever or wherever that would be. To crown it all, she renounced her heathen gods and worshiped the true God.

III. Blessings Which Attended Ruth's Choice.

1. She found the true God (1:16). Instead of a heathen god who was unable to help her, she had the Living God, the God of Israel.

2. She found friends (ch. 2). As she went to glean she was led to the field of Boaz, a man of grace and wealth. The servants of Boaz treated her with consideration.

3. A good husband and happy home (chs. 3 and 4).

4. An honored place in the Israelite nation (4:13-17).

5. She became a link in the chain of the Redeemer's ancestry (4:18-22 cf. Matt. 1:5).

The one who fully decides for Christ and gives up all for Him shall receive a hundredfold in this life and in the world to come eternal life.

The story of Ruth is a fine example, first, of right racial relationship. The union of Ruth with Israel was around the true God. And, second, of dispensational truth:

(1) The famine in the land indicates the testing of the Jews in the great tribulation.

(2) The going into Moab indicates the sojourn of the Israelites among the heathen.

(3) The sickness and death in Moab indicates the chastisement of the Jews and their sorrows in the present age.

(4) The return to the land indicates the gathering of Israel to their own land, Palestine.

(5) Ruth's decision indicates the gathering of the Gentiles through the influence of the Jews.

(6) The marriage between Boaz and Ruth indicates the union of the church with Jesus Christ.

Add Charm to Character. Small kindnesses, small courtesies, small considerations, habitually practiced in our social intercourse, give a greater charm to the character than the display of great talents and accomplishments.—Katy.

Finding Happiness. God made the world to be happy in, but all the happiness some people get is hunting for trouble on a dark night with a dim lantern.—Herald of Gospel Liberty.

Mrs. Nancy Oglebese, and daughter, Dorothy, returned home last week, after a ten days visit with Rev. O. M. Milligan and family in Pittsburgh.

Mrs. F. M. Reynolds of St. Bernard, and Mrs. Margaret Meyers of La Paz, Ind., have returned home after a visit with Mr. and Mrs. Fred Clements. They had been at Sulphur Springs for several days.

SKELETONS, OLD RELICS IN INDIAN MOUND

Two complete skeletons and two skulls, apparently those of children, were unearthed in excavations made in an Indian mound on the farm of Cassius Haines, on the Fairground road five miles northwest of Xenia, a few days ago.

The mound builders relics, which include besides the bones, tools such as were ordinarily buried with them

dead by these prehistoric inhabitants. The skull bones were crushed, giving of this region, inside a bone gauge with a six-inch blade and handle the man might have been killed, perished long; a stone plate for which no use is known, according to Dr. W. A. Galloway, president of the Greene County Historical society, and a bone the first tooth.

The mound was opened last summer, but not much excavating was done until this summer. Dr. Galloway says that the specimens so far removed are very fine, and he is expecting that more valuable ones will be taken from it.

VOTE FOR

Judge Harry G. Gram

Republican Candidate

FOR CONGRESS

Primary - - August 12th

Graduate and Board Member of Wittenberg College. President Springfield Y. M. C. A. Chairman Clark County Chapter American Red Cross. Vestryman Christ Episcopal Church. District Committeeman, etc., Boy Scouts. Farmer—Reared on, owns and operates 70-acre farm. Judge—Probate and Juvenile Court. Active worker in public welfare enterprises in city, county and state. Member F. O. E., Jr. O. U. A. M., K. of P., and Masons.

Judge Gram's life work has been FOR PEOPLE. He knows their troubles, their problems, their fears. Well equipped in every way to represent them in Washington, he will, if elected, represent THE PEOPLE and not the BIG BOSSES of the political machine.

For FIVE YEARS he was Secretary to Congressman General J. Warren Keifer and he knows how to do things in Washington.

SMOOTHING YOUR PATH ALONG EVERY HIGHWAY

Specially designed springs and four Houdaille double-acting hydraulic shock absorbers contribute to the riding comfort of the new Ford

THE NEW FORD PHAETON

ONE of the fine things about driving the new Ford is the way it takes you over the miles without strain or fatigue.

Mentally you are at ease because you are sure of the mechanical performance of the car. No matter how long the trip, or rough or devious the roadway, you know it will bring you safely, quickly to the journey's end.

Through thickest traffic, up steepest hills, along the open road, you will drive with security and confidence because the new Ford is so alert and capable and so easy to operate and control.

The steering wheel responds readily to a light touch. Gears shift smoothly and silently. Brakes take hold quickly and firmly even on rain-swept streets. Unusual acceleration, speed and power are especially appreciated in emergencies. A space but little longer than the car itself is all you need for parking.

These features simplify the mechanics of driving and, together with reliability, add a great deal to the mental comfort of motoring.

Physically, too, you will feel fresh and relaxed in the new Ford because it is such a roomy, easy-riding car.

The restful, well-upholstered seats invite you to sit back and relax and enjoy

the panorama of the passing miles. Steadily, evenly you travel along because of the specially designed springs and the four Houdaille double-acting hydraulic shock absorbers. They cushion the car against hard jolts and bumps, reduce bouncing, and smooth your path along every highway.

See the nearest dealer and have him take you for a demonstration ride in the new Ford. Then you will know, from your own experience, that it brings you everything you want in an automobile at an unusually low price.

Community Building

Small Towns to Become Centers of Industry

Not long ago the nation was stirred by the drift of population away from farms and rural areas into the great cities. Young men, attracted by the high wages paid by industry and what appeared to be the superior social and economic advantages of urban life, deserted the soil for the city.

In the past quarter-century rural America has made tremendous progress. Better schools, good roads, the automobile, telephone and radio have created a rural civilization greater than any in history.

Industrialists, attracted by such factors as lack of labor difficulties, low taxes and uncongested, pleasant living and working conditions, were barred from entry into the small town only because of lack of power.

Now, according to some authorities, the smaller towns are on the road to industrial leadership of America and the countryside is staged for the next scene of our industrial progress. The drift of population has turned. At present the only pronounced gain in industrial wage earners is taking place in the country.

It is safe to say that many towns which are almost unknown today will be the great industrial centers of the future. The industrial revolution of the eighteenth century apparently doomed rural progress—now the electric revolution of the twentieth is reversing the process. —Longview (Wash.) Daily News.

Extensive Survey of North Carolina Roads

Reports from various fronts in the battle to reclaim and preserve our roadside beauties are constantly being received by the American Nature Association.

One of the most interesting developments is the inauguration of a denational survey by the National Council for the Protection of Roadside. This is the new name of the organization previously known as the National Committee for the Restriction of Outdoor Advertising, through which more than one hundred organizations joined to work in this common effort. North Carolina has been selected as the state for the survey, particularly on account of the progressive attitude of the highway department of the state, which has been doing effective work in roadside planting and beautification. The survey will be thorough and cover the entire nation. Each highway of importance will be covered, mile by mile, and extensively photographed. A complete consideration will be given to the various phases of North Carolina's particular problem and a full report with recommendations will be made and published as a part of the association. For at least two months will be devoted to the study.

Renovate Where Possible

In some cases it might be necessary to raze an existing building in view of the fallacy of the belief that all that is old is good. In other cases it would be folly to do so because sometimes additional structural features and an architectural treatment are all that would be necessary to achieve a fine result. There lurk in some of our shabbiest streets, possibilities for the finest of banks, theaters, stores and office buildings, music hall, professional buildings and great beauty—in fact, all those elements contributory to civic excellence with which the architect conscientiously concerns himself and which, in conjunction with city planning he will eventually bring about.—Exchange.

Think Before Buying

Some things are essential in the selection of the place where you are going to have your home. Think of transportation, churches, schools and your neighbors. When you have decided to buy a lot or a home already built, buy it not for speculation or resale but for the specific purpose of owning a home. Lay the idea of a home be the dominant thought. That will make it a safer purchase and bring greater assurance of happiness rather than grief.

A two-apartment building is sometimes a safer and more conservative home than the proverbial bungalow.

Rubbish Pile a Menace

Sixty per cent of all persons burned to death met this tragic end in their homes. Approximately one-half of this number are children less than ten years of age.

The majority of dwelling-house fires have their origin in cellars, attics and closets. Rubbish accumulation is generally the cause.

Experience has demonstrated the fact that periodic and systematic inspection of all buildings for the elimination of fire and health dangers has materially improved the general outlook and safety of communities.

Drain Roof Deposits

The day of the drain roof is gone—the roof that simply sheds out the rain and weather. True, the roof of a home must give protection against the elements. It must last. But as one of the most prominent architectural features of the home, the roof should also add much to its beauty.

666

Relieves a Headache or Neuralgia in 30 minutes, checks a Cold the first day, and checks Malaria in three days. 666 also in Tablets.

EQUALIZATION OF SCHOOL TAX WILL BE MADE

The Greene county board of education has placed all village and rural school districts on a par with exempted cities and villages by voting to return each district the taxes collected annually under the 2.65 mill levy for school purposes.

County Superintendent H. C. Aultman, in announcing the action of the county board, said that it is believed to be a pioneer movement in the state in equalizing the distribution of school taxes by exemption of all districts in the county.

The 2.65 mill levy was originally a state levy, and under that system the total collection was distributed back to the school districts proportionate to their transportation and teacher salary expenses. Cities were exempted from the distribution in this manner in 1927, and in 1928 the Osborn village district was exempted.

By action of the county board the 12 village and rural districts in the county are placed on an equal basis, the full amount collected by the 2.65 mill levy being returned to the district in which it is collected to be used by that district as it sees fit, in paying its own operating expenses.

The former system has not acted fairly to all districts, it was explained by Mr. Aultman, owing to the inequalities in transportation and salary expenses. One district which by reason of more economical operation would not need the full amount collected, would be deprived of its share in order to use it in another district where the operating expenses were higher. The exemption plan will obviate this system, it was pointed out, as the money collected by the levy in each district will go back to that district intact.

Apple Trouble Strikes State

Fire Blight Infection Enters Practically All Ohio Apple Orchards

Fire blight, a disease of pear and apple trees, swept through Ohio orchards this spring and summer, and few orchards escaped, reports A. L. Pierstorff, plant pathologist for the Ohio State University. The disease, which once removed from Ohio many commercial pear plantations, is now more serious on apples than for many years.

The symptoms of the trouble are drying and dying leaves, which turn, during the growing season, a deep brown color.

There is little for the orchardist to

do in the summer that will check the disease, according to Pierstorff. In fact, attempts now to cut out the diseased parts of the trees may result in further spread, he says. He recommends that the grower wait until September when the trees quit growing, and then, before the leaves fall, cut out the diseased twigs and cankers. Cuts are made about two inches below the affected area.

The disease is spread by pollinating insects and splashing rain, according to the plant pathologist. During this dry season it is probable that the trouble was transmitted wholly by insects, he says. Almost all varieties of apples are showing infection. It is most severe among the Yellow Transparent, Jonathan, and Grimes varieties. Even the Rome Beauty variety has proved susceptible.

Milton's Froghop

Methodists I see in my mind a noble and pulsant nation rounding herself like a strong man after sleep, and shaking her invincible locks; methodists I see her as an eagle mewing her mighty youth, and kindling her undimmed eyes at the full midday beam.—John Milton (1608-1674), "Areopagitica."

Airy Liago

Aviators are developing a language all their own as the following sample description of a landing on a very cloudy day, indicates: "The ceiling was so low I couldn't even see the sock, so I side-slipped the old crate down through the pea soup, cut the gun and set her down for as neat a three-point pancake as ever I made." —Capper's Weekly.

POLITICAL ADVERTISING

CARRIE H. FLATTER

There is a Greene County woman, We all know her quite well, Who has been working for the right For years we cannot tell; Who has given of her energy, Her time and money too, To make Greene County a better place To bring our children thru. She has been asked to represent This county in the state, To take a legislative seat Before it is too late. At first she really did decline, But later thought it thru, And now she is a candidate, And asks a vote of you. Her slogan, it's just like her, Efficiency is her cry; Economy in all public affairs As in your own, to try; And then to have made public Expenditures of funds; That people may know exactly where Their taxes have gone, in sums. Her name is Carrie H. Flatter On the ballot it will appear, Just place an X before her name August twelfth. We thank you here. Flatter-for-Representative Com. L. S. Dunkle, Secretary.

Do Not Miss Our Exhibit At The Greene County Fair Next Week

We will show for the first time in this part of Ohio the new corn picking machine, a product of The International Harvester Company. The machine, a tremendous labor saver and profit maker, picks two rows of corn at a time and dumps the corn at the end of the row. It marks a revolutionary advance in corn harvesting.

We will also show for the first time anywhere in this section one of the new ten foot power binders, in which thousands will have keen interest. This is another product of the International factories.

We anticipate interest will be as sharp in our exhibit of the new free wheeling Studebaker automobile. This improvement is one of the greatest in automobile history.

A Complete Line of Farm Implements

Do not fail to see the Whippet automobile, one of the most popular ever made.

The Alumni are responding generously and liberally to the call for the Maintenance and Expansion fund of \$15,000. Several nice gifts have been received. One who sends in a gift of \$50.00 says: "I appreciate what the college did for me and realize that I am only one of the many who could never have had a degree without Cedarville College. I hope you and others who are working so faithfully will be successful." Another writes: "I have been thinking of Cedarville College for some time and wondering what I can do. I have many fond memories of days spent there. We must not give up Cedarville College. I have a small bank account of my own. Very small. What I can give is very little but it may help some." This graduate has meager means but she sent \$10.00 and a promise to do more as soon as she could. Another one, who sent the same amount says: "I wish I could do more just now but my funds are low. I shall lay up and give more next year. May Cedarville College live and go on doing its wonderful work." Another one who sent a contribution of \$100.00 says: "I gladly give this for the work of Cedarville College and expect to give more next year. We might quote from others but these quotations are sufficient to show the interest of the graduates of Cedarville College.

All of the class of 1930 have secured positions except three. We refer to those who expect to teach. This is a fine showing when compared with graduate teachers of other colleges. A representative of one of the large Teacher Training College Offices that only a few of the graduates of his school had secured positions and he wondered how Cedarville College got positions so soon for its graduates. The secret is three fold: We get after positions for them early in the year. The character of our graduates is unusually good. They stand the test when it comes to the work.

SEWING CLUB REPORT

The meeting of the Pollyanna Sewing Club was held July 9th at the Library.

The meeting was called to order by the President Edna Sipe. Roll call and minutes were read.

We were told about the premiums that are awarded.

Edna Sipe and Rachel Creswell were selected to go to Xenia to give the demonstration.

A refreshment committee was appointed as follows: Doris Ramsey, Mary Helen Creswell and Katherine Randall.

Meeting was adjourned.

Actual Road Tests Prove SUNOCO MOTOR OIL Keeps Out Hard Carbon Increases Power . . . Minimizes Knocking

YOU can see the heavy carbon deposits on Piston A, after running only 1000 miles . . . hard, flinty carbon. A well-known, compounded, paraffine oil, containing cylinder stock, was used.

Piston B was taken from the same Ford engine, same cylinder, after running 5000 miles (5 times as far). SUNOCO MOTOR OIL was used. After the test, there was only a little soft, harmless soot, which could be wiped off easily with a rag . . . a characteristic SUNOCO performance.

Why Hard Carbon Causes Knocking and Loss of Power

In modern motors, there's no more space for carbon between piston and top of cylinder than the thickness of a thin dime. It does not take long, therefore, for carbon accumulation to cause loss of power, pre-ignition, knocking and expensive carbon removal costs.

WHEN IN NEED OF SALE BILLS SEE US

LOCAL AND PERSONAL

Mrs. Joanna Krietzler of Dayton spent Thursday with her son, Mr. John Krietzler and family.

The Women's Missionary Society of the United Presbyterian Church at Clifton is sponsoring a Tom Thumb Wedding, Friday, August 15th at the Opera House. Mrs. Anna Smith of this place is directing.

Mr. Oliver Jobe and family of Granville, Ohio, spent the first of the week here with relatives.

Clarence Stuckey of this place and his brother, Dan, of Dayton, have gone on a trip to their old home in West Virginia.

Mr. Vance Burba and family were shaken up Wednesday evening when their car was hit by a middle of the road driver near the J. J. Turner farm. Mr. Burba took the ditch but not until his car was hit. No one was injured and the motorist responsible failed to stop.

The members of the Golden Rule Circle of the Methodist Episcopal Church were entertained last evening at the home of Mr. and Mrs. Vance Burba in Xenia.

The Cedarville Township trustees will resurface the Courtville road from the county line this way. A new truck has been purchased from Jean Patton for the hauling and the work will be in charge of G. W. Hamman.

The meeting of the Pollyanna Sewing Club was called to order by the President, Edna Sipe. Roll was called and minutes were read.

Refreshment committee was appointed as follows: Ada Ferryman, Helen Pemberton, Julia Crosswell, Rachel Creswell, and Edna Sipe. Meeting was adjourned.

Rev. James L. Chesnut and family of Ft. Wayne, Ind., are visiting at the home of Judge and Mrs. S. C. Wright.

The Finney family reunion was held July 29th at Forest Park, Dayton.

Coach R. M. Borst has rented the William Finney residence. He will move from the property now owned by Mr. and Mrs. S. T. Baker.

Marion Rife of Washington C. H. visited with Dallas Marshall a few days the past week.

Emile Finney sprained his wrist Monday evening while cranking his car. Dr. Harris dressed the injured member.

John Williamson will entertain a number of his friends Saturday afternoon to celebrate his birthday.

Wendell Marshall, son of Hugh Marshall, Alpha, is visiting at the home of his aunt, Mrs. Hugh Grindell.

Mrs. Albert Kopp and son, Junior, of Columbus, are spending a month here with Mrs. Kopp's parents, Mr. and Mrs. Wm. Hopkins.

Rev. Jason McMillan and family, of Norfolk, Va., are the guests of his brother, Clayton McMillan and family.

Mr. Robert Evans of Emmet, Idaho, is the guest of Clayton McMillan and family.

Mr. Charles Coulter and family and Miss Frances Finney drove to Ft. Thomas, Tuesday, to visit with Robert Coulter and Joseph Finney, who have been at the military camp this past month. Both boys arrived home Thursday morning.

Rev. Robert Coleman and family and Mrs. May Allen and son, Nowell, are visiting at the home of Mrs. Margaret Milroy.

Mrs. Lydia Ferguson, mother of Mrs. Jesse Turnbull, will celebrate her ninetieth birthday, Saturday.

Miss Maude Hastings, who is attending summer school at O. S. U., was home over the week end.

The meeting of the Pollyanna Sewing Club was called to order by the President Edna Sipe. Roll was called, the minutes were read and approved.

A refreshment committee was appointed as follows: Betty Jane Judy, Francis Kenning and Margaret Bailey. The meeting was adjourned.

Miniature Golf Course Will Open Saturday Eve

Ed. Payne announces the opening of his miniature golf course at Old Mill Camp on Saturday evening. The course is now nearing completion and will be open to the public on schedule time. There are a number of new features for this course that will prove attractive to golf fans.

You do not have to be a professional player to enjoy miniature golf but you can easily learn the game which has fascinated so many people the past year.

Golf clubs will be furnished and there will be refreshments as usual at the Old Mill Camp. The grounds will be flooded with electric light. Paul Wright will have charge of the course.

FIVE HOUR WORK DAY IS LONG ENOUGH

"Five hour work day" is enough says State Inspector Callahan, Springfield, who made two visits here owing to the complaint that men were being employed ten hours and paid for ten hours on the waterworks and sewerage plant.

Callahan is one of the numerous state inspectors that is not at present being trouble with "hard times," a thing we hear much discussion over. At least Callahan is on the pay roll and that is something hundreds and thousands of laboring men have been divorced from in recent months.

A terrible crime had been committed here when the contractors were paying men by the hour for ten hours work. The men were satisfied but now hold a grievance as it cuts their pay 80 cents a day. The company was anxious to get the contract completed for the benefit of local citizens, many of whom are out of water. The continued dry weather only adds to fire hazard, but that means nothing to Mr. Callahan, who draws his pay from the taxpayers of Ohio.

Council protested to the state department and Governor Cooper but the best information we get is there is no one in Greene county that has political pull with the administration for permission, which power the state authorities have, to permit work on the ten hour basis. If we did not know of other contracts in Ohio being carried out on ten hour basis we could offer no complaint.

It makes no difference whether the people have water for fire protection or what extra cost is put on the property owners so far as Mr. Callahan is concerned. And moreover, Clark J. G. McCorkell has a letter from the state jacking him in his stand.

Mr. Callahan is not only for the eight hour day but he openly stated to local officials that a five hour work day was a plenty for any man. When it comes to Ohio having an exponent of a five hour work day on the pay roll it is time for the Cooper administration to begin to make good on the promises of a "business administration." Mr. Callahan is entitled to his personal views but he has no moral or legal right to argue the question with our local officials.

The local contracts have given many men work who would have been idle this summer. These men are sore at the attitude of the state department. Local citizens in general have a grievance that necessary work must be retarded at a time like this following the plea of providing work for unemployed. Local authorities asked for nothing more than what has been granted contractors doing work in Ohio at this time.

It is likely the present contractors will be unable to complete the work on time on the eight hour schedule owing to the nature of rock excavation. This will mean an additional interest charge on the entire cost for one year until taxes can be collected and will change present estimated costs to each property owner and it is the price local people pay for not having political pull and being informed that "a five hour work day is enough for any man."

Mrs. Lucy McClellan Died Monday Afternoon

Mrs. Lucy McClellan, 80, died at her home Monday afternoon about three o'clock after an illness of several weeks, due to a stroke of paralysis and infirmities of age.

The deceased was the daughter of Jonathan and Ellen Smith and had been a life long resident in this vicinity. She was the widow of Robert H. McClellan who died in 1897, and is survived by one son, James J. of Joplin, Mo.; George A. a son, and Mrs. Irene Shank, have preceded her in death, the latter only a few months ago at her home in Kansas City. One sister, Mrs. J. E. Turnbull and Mrs. Mary Andrew, a foster-sister, survive; with three grand-children, Mrs. Leland Johnson, Fort Worth, Texas; Miss Marjorie McClellan, Cleveland, Ohio; and Robert G. McClellan of New York City.

The funeral was held Wednesday afternoon from the late home on Main street, Dr. C. M. Ritchie in charge of the services.

Burial took place at Woodland cemetery, Xenia.

Mrs. McClellan was a member of the U. P. church and the Wednesday A. T. tarian club. She was a woman whom all loved that knew her for the radiant disposition she possessed.

Mrs. Mary Richards and daughter, Marcella, of Chicago, were guests of Dr. and Mrs. O. P. Elias over the week end.

Wilberforce Collegians are to play a return game Friday evening with Coach Boar's Cedarville team. Saturday the Collegians are taking on the strong Fulton Iron Works team at Springfield, present leaders of the Industrial League.

Both games will be played at Wilberforce. Games called at 8:30 P. M.

Next Wednesday the Collegians play Wilmington Supply at Wilmington and Thursday, Goyers at Wilberforce. Other games for the week are pending.

Church Notes

Sabbath School at 10:00 A. M. Preaching Service by Dr. C. M. Ritchie at 11 A. M.

COLLEGE MALE QUARTET ON TOUR

The Muskingum College Male Quartet will appear in the United Presbyterian Church, Clifton, on Thursday, August 7, giving a program of mirth, melody, and harmony. Quartet arrangements, solo numbers, instrumental novelties and readings will feature the evening's entertainment of humorous, classical, folk and sacred music.

Constituting the personnel of the party are: Roy Haynes, (Hanover, O.), first tenor; Robert Smith, (Albiquippa, Pa.), second tenor; John Galloway (Akron, O.), baritone; Frank Neff (St. Clairsville, O.), bass; and Howard White, (Youngstown, O.), pianist.

The quartet is travelling by motor and will tour Ohio, Pennsylvania, New York and nearby states in the interests of Muskingum College. Young people in the communities visited will be interviewed relative to their plans for attending college and the opportunities which Muskingum offers will be presented.
